

Advisor's Message

I welcome the thirteenth batch of students of AKMMC in 2012-21 session. AKMMC has attained a good reputation as a quality medical college both at home & abroad. AKMMC is modern, unique and quality assured in terms of full time experienced academic staff, equipment, and laboratory and hospital facilities. New facilities are being constantly added and expanded. A good number of foreign students have been admitted in last five years who are quite comfortable with the environment both academic and administrative.

Seven batches of AKMMC have already been qualified as doctor and serving in different hospital with reputation. Many doctors are on the verge of completing post graduation.

I sincerely hope that the new batch of students will use the existing modern facilities available at AKMMC and become a good doctor. They should serve the community and suffering humanity with professional attitude both at home & abroad.

A handwritten signature in black ink, reading "Ashraf Yussuf". The signature is written in a cursive style with a long, sweeping underline.
